

OUR MISSION

Montana Conservation Voters protects our clean air, clean water, public lands and democracy by supporting leaders who fight for these rights and by holding accountable leaders who do not.

OUR VISION

- By 2028, pro-conservation candidates and elected officials will have replaced anti-conservation elected leaders in key seats at all levels of government.
- Energy freedom will be an unavoidable issue for voters and candidates, and clean energy investments will benefit air and water quality for all residents and visitors.
- Montana's expansive public lands will support thriving economies and wildlife populations and equal access to the ballot will unite Montanans in safeguarding Montana's outdoor legacy.
- To elevate conservation and democracy issues, we will expand our team and outreach while recruiting more organizers and volunteers.
- We'll advocate for increased protections for public lands and waters, defending conservation funding at all levels of government.
- Through civic engagement, we'll reinforce democracy and strengthen conservation efforts, preserving Montana's constitutional protections for future generations.

HOW WE ACHIEVE THIS VISION

Connect. Protect. Elect.

Montanans are the best advocates for our future. Through our network of support, we educate and engage Montanans on critical issues that influence the trajectory of our state. Empowered by grassroots support, we champion policies that uphold Montana's outdoor recreation legacy while fostering a resilient democracy.

Hold Leaders Accountable

MCV runs innovative and effective accountability programs to shape how elected officials, news media and the general public view and act on conservation issues. Through hard-hitting and localized communications and engaging in storytelling, we demonstrate to elected officials that their constituents are paying attention.

Elect Pro-Conservation Champions

From the municipal level to the U.S. Senate, we are building a strong bench of candidates from both sides of the aisle who have demonstrated their commitment to protecting Montana as the Last Best Place. MCV is one of the only state-based organizations doing bipartisan work at all levels of government in Montana.

Expand the Conservation Voter Movement

Utilizing statewide community organizing and forging coalitions with both traditional and non-traditional partners, MCV leverages its broad reach to engage all geographical areas and constituencies across Montana.

OUR IMPACT & ACCOMPLISHMENTS

For 25 years, Montana Conservation Voters has been steadfast in protecting our state's outdoor legacy. Our commitment goes beyond advocacy; we actively engage in politics, striving to elect leaders who prioritize conservation and democracy.

Through legislative scorecards, member communications, creative tactics and events, MCV moves conservation policy forward from the municipal level to the U.S. Senate by holding elected officials accountable to their records.

MCV has established a well-connected team of grassroots organizers to engage and mobilize voters across the state.

Through our affiliated political action committees MCV plays a key role in Montana's political landscape and has helped elect pro-conservation champions at all levels of government.

We have increased the visibility of conservation and democracy issues by knocking thousands of doors to support MCV-endorsed candidates and advance solid conservation policies in the state.

MCV is protecting democracy by defending Montanans' constitutional right to a "clean and healthful environment" on the ground and in the courts.

YOU CAN SUPPORT THIS WORK

Educated, excited, and empowered Montanans can drive meaningful change for the state and for future generations. We face enormous challenges as we look toward our next four years, and your investment can power that work. This is your chance to partner with us to create a political landscape in Montana where conservation, energy freedom, and public lands are popular nonpartisan issues. Your contribution directly supports our daily efforts to build community and capacity, and helps us get across the state to talk with Montana voters directly about these issues that unite us.

JOIN THE MOVEMENT

Protect our Last Best Place by becoming an MCV member today. As a new or renewing MCV member, you will receive important information on how to support leaders who will drive positive change in conservation, how our decision makers are performing, and how to hold our elected representatives accountable.
